

PHYALURONIC®

SKIN CARE FORMULATION TRIAL

DEAR SKINCARE TRIAL PARTICIPANT

Thank you for joining the PhycoSkin Molecular Balance Trial.

You are about to test three secret moisturiser formulations, chosen from Samples A, B, C, D, E or F. Each has been made with our signature Phyaluronic® molecule, alongside different blends of soothing, hydrating, and bioactive ingredients.

This trial is designed to help us better understand how different formulations suit different skin types — and to help you discover which formulation feels best for your skin.

Your feedback is incredibly valuable. It helps us refine our formulations, improve our skin analysis tools, and continue building skincare that is more responsive to real skin.

If you have any questions or run into any issues, please contact us at allyson@phycohealth.com.

Thank you again for being part of this journey. Your input is helping shape the future of Phyaluronic® skincare.

Please patch test each new formulation before full use.

PLEASE ALWAYS PATCH TEST AS THE START OF EACH FORMULATION.

**Warmly,
The Phyaluronic® team**

YOUR START AND END DATES AND PROGRESS IN THE TRIAL WILL BE VISIBLE ON YOUR DASH BOARD AT THE QR CODE ON YOUR LEFT. YOU WILL HAVE RECEIVED AN EMAIL WITH YOU ACCESS PASSWORD FOR YOUR EMAIL ONLY.

QR FOR QUESTIONNAIRES

Trial Steps

1. Complete the onboarding form.
 2. Do your **SD (standard definition) and HD (high definition) skin analysis**.
 3. Use **Cream X** for 7 days, morning and night.
 4. Complete the questionnaire.
 5. Repeat your **SD and HD skin analysis**.
 6. Start the next cream and repeat.
 7. After your third cream and final questionnaire, you're done.
 8. We'll send you a **\$50 credit** and reveal your formulation codes once all participants have finished.

HOW IT WORKS

- **Random Start:** You'll receive a pack with 3 tester jars labelled A, B, C, D, E or F. Begin with the sample on your dashboard.
- Use no product on skin for 3 days.
- Do the skin analysis scan on SD and HD using your phone in a well lit area that you can return to.
- **One Week Per Sample:** Use the same jar for up to seven days, morning and evening. A little goes a long way.
- **QR-Code Feedback:** Each jar has a QR code at its base. Scan it on **Day 1** and again on **Day 7** of each sample week to complete the brief questionnaire and your follow up skin analysis to measure for any changes.
- **Repeat:** for each of your three secret formulations. **Before you begin**
- Complete the **Onboarding Form** using the QR code.
- Stop using active skincare products for **3 days** before starting the trial.
- Keep your routine simple and consistent during the trial.
- **For each formulation**
- Check your dashboard to see which sample to start with.
- Do your **skin analysis scan in SD and HD**.
- Start your assigned cream and use it for **7 days**, morning and night. **A little goes a long way.**
- Complete the questionnaire.
- Repeat your **skin analysis scan in SD and HD**.
- Move on to your next assigned cream and repeat the same process.
- **At the end**
- Once you have completed all **3 formulations**, you are done.
- Thank you — we will then send you a **\$50 credit** to choose a product you love, and we will reveal which sample codes you tested once the trial is complete.

IMPORTANT NOTES

- **Patch test first** before starting each formulation.
- Use the scans in a **well-lit space** you can return to each time.
- Try to use the **same lighting and angle** for each scan.
- If irritation occurs, stop use and contact us.
